

Ausco Shuttle Car Brakes

Less Weight, Better Sealing, Lower Cost

20% Less Weight

- Easier to handle
- Easier to install

High-Pressure Sealing

- Ausco-designed seal capable of 180 psi continuous pressure with spikes as high as 500 psi
- Protects gearbox from being overfilled with brake cooling oil
- Reduces expensive gearbox repairs and downtime

Lower Price than the Competition

- Meets OEM specifications
- Often less expensive than competitive rebuilds

**Safety comes with a cost.
Ours just happens to be lower.**
